

6th Form Independent Study Guide

Subject – **CHEMISTRY**

- Do at least five hours of independent study per subject per week.
- Use: Doc Brown, Chem Guide to help with general understanding, use the “work throughs” for consolidation.
- Mill Hill provides a fully comprehensive online study guide with lots of questions and answers for all Y12 and Y13 students.
- At the end of each topic, review that entire chapter in the text book. Formulate any questions based on problem areas.
- At the end of each lesson complete the summary questions, and at the end of each topic complete the practice questions in the online textbook (Kerboodle).
- Use the entirety of the Kerboodle (online textbook) resources.
- Use lunchtime / afterschool revision (help) sessions.
- Check the pupil work drive in the Chemistry folder for resources (Carre’s).
